RE: Ashland/NSP Lakefront Site
Errata for Remedial Investigation Report
Final Human Health Risk Assessment
CERCLA Docket No. V-W-04-C-764
USEPA ID# WISFN057952
WDNR BRRTS #02-02-00013

Dear Mr. Hansen:

In accordance with USEPA's September 19, 2007 letter, modifications to the Final Remedial Investigation (RI) report (August 31, 2007) and the most recent version of the Human Health Risk Assessment (HHRA) report (September 6, 2007) are attached. An errata sheet has been prepared to show the modifications to the RI Report. Please note that the RI Report errata sheet includes changes to Section 7 of the RI Report consistent this revision of the HHRA.

This HHRA document has been prepared in accordance with the approved RI/FS work plan, which in turn is based upon the Scope of Work (Task 7 (A) 2) appended to the November 2003 Administrative Order on Consent between USEPA and NSPW. The attached pdf files includes the HHRA report text, tables, and Appendices B, D, and F. A separate file of the report showing edits to the HHRA text is also attached. The remaining segments of the HHRA are not included because they have not changed since they were submitted with the previous version.

Sincerely,

NEWFIELDS
